PROFESSIONAL SUMMARY

Full Stack Web Developer passionate about building scalable, secure, and modern web applications. Experienced in developing complete systems using PHP (OOP), MySQL, and frontend technologies such as HTML, CSS, and JavaScript.

Strong focus on clean architecture, performance optimization, and user-centered design. Motivated to continuously learn and improve skills while working on real-world projects.

PROJECTS

7X PHARMA NEXUS

A comprehensive and scalable pharmacy management system designed to optimize inventory control, automate sales tracking, and manage patient credit efficiently.

Built with PHP (PDO, OOP), MySQL, HTML, CSS, and JavaScript.
Focus on security, performance, and modular architecture.

7X HUB BLOG

A dynamic blog platform developed using Object-Oriented PHP, PDO, and MySQL.

Features include secure authentication, user management, and a full CRUD system for articles, categories, and comments.

Designed with a modern UI using Glassmorphism and Dark Theme concepts.

VOLUNTEERING & EVENTS

Lead Visual Designer & Organizer | IT WAVE 2026

- Led the visual identity and branding design for "IT WAVE 2026," a premier 5-day technology event in Tangier.
- Designed high-impact promotional assets, including official event posters and digital graphics, ensuring a cohesive and modern high-tech aesthetic.
- Collaborated closely with cross-functional student teams and organizers to align design deliverables with event goals.
